

MEET THE PRODUCT

ARBONNE INTELLIGENCE® GENIUS

Isn't it time to outsmart your skin? Arbonne Intelligence brings next-generation innovation to the forefront with a multitasking, revolutionary formula. Genius is a brilliant delivery system designed to unveil your most radiant, healthy-looking skin. Nightly Resurfacing Pads are paired with a fresh-pour solution containing our dynamic proprietary PBR+ complex, with Phytinol™, botanicals and retinoid. It's seriously intelligent skincare. Pure Genius. Nightly Resurfacing Pads and Nightly Resurfacing Solution, 60-day supply | All skin types, ages 12–60+ | Allergy- and dermatologist-tested. #4317; \$95

WHAT IT DOES

- Improves the overall look and feel of skin texture to restore a healthy, radiant glow to dull skin
- Helps reduce the look of dark spots
- Helps reduce the appearance of fine lines and wrinkles
- Provides the appearance of smooth, even-toned skin texture
- Shows significant improvement in skin clarity and blotchiness

TALKING POINTS

- Beauty Tip: Also try on back of hands and décolleté to achieve the same skin-beautifying results.
- Use with your favorite Arbonne toner, serum and moisturizer for extra hydration.
- Works with any Arbonne skincare collection to supercharge your nightly regimen.
- For long-lasting benefits, use Genius continuously.
- Sign up for Arbonne Special Delivery™ to have this beauty essential delivered every 60 days.

HOW TO USE

- Use Genius every night.
- Step 1: Cleanse with your favorite Arbonne facial cleanser.
- Step 2: Pour entire bottle of retinoid solution slowly over pads. Discard bottle. Wait 1 minute before use.
- Step 3: Gently sweep one pad over clean, dry skin, in upward and outward motions.
- Step 4: Follow with your favorite Arbonne toner, serum and moisturizing products. Sunscreen is recommended every morning.

ARBONNE INTELLIGENCE® GENIUS

THE PROMISE

In 2 weeks

- 100% showed improvement in the appearance of skin moisture, firmness and elasticity.*
- 82% said they loved how the treatment was less irritating than a chemical peel or exfoliating scrub.**

In just 2 weeks, reveal dramatic results you can see:

Texture

Baseline
Red marks indicate rough skin texture.

At 2 Weeks
Reduction of red marks indicates improvement in the look of skin texture.

Fine Lines

Baseline
Red marks indicate areas of fine lines.

At 2 Weeks
Reduction of red marks indicates diminished appearance of fine lines and crow's feet around eyes.

Photos: VISIA-CR Image Analysis

In 8 weeks*

- 100% showed improvement in the appearance of depth and width of wrinkles and fine lines.*
- 80% showed significant improvement in skin clarity and blotchiness.*

- 82% said after using this product, they found their skin to be softer and smoother.**

*Based on a clinical instrumental study of 50 subjects

**Based on a 4-week consumer perception study

ARBONNE INTELLIGENCE® GENIUS

KEY INGREDIENTS & BENEFITS

- Proprietary PBR+ Complex combines science and nature to provide visible results in as little as two weeks.
 - P** = Arbonne proprietary high-performance complex **Phytinol™** combines two botanical extracts, alfalfa (*Medicago sativa*) extract and chicory (*Chicorium intybus*) Extract, which work synergistically to help promote improved skin tonicity and surface smoothness for an even, less-lined look, to fight the visible signs of aging.
 - B** = Delivers botanical **Bakuchiol**, a plant retinoid.
 - R** = Delivers scientific **Retinoid**.
- Mandelic acid helps encourage cell turnover at the skin's surface for bright, even-toned skin, while bisabolol helps provide calming, soothing comfort.

FREQUENTLY ASKED QUESTIONS

- Q. Why is SD alcohol used in this formula specifically?**
- A.** SD alcohol is used to deliver the solubilization of the key ingredient retinoid, which results in better stability, efficacy, and faster delivery to the skin surface.

SD pure grain alcohol was also used to solubilize brightening ingredients, such as mandelic and azelaic acids, which are not soluble in a waterless base. It also reduces tackiness and absorption while improving delivery of key ingredients for superior performance. We designed the formula to be waterless to take advantage of its moisturizing benefit and to avoid the use of preservatives and minimize irritation potential.

Science today allows us to develop more efficacious, environmentally sound, safer alcohol with controlled purity. Many types of alcohols come from plants, animals or petroleum. Because we are vegan, environmentally conscious, and we want to avoid the use of petroleum-derived resources whenever possible, we use a plant source.

Grain alcohol does not have petroleum distillates, which have been linked to many health concerns. Grain alcohol comes from naturally occurring fermentation, which can be metabolized by the body so it doesn't become toxic like other synthetic alcohols.

When grain alcohol is combined with appropriate botanical and scientific ingredients in conjunction with other emollients, the end result is a non-drying, new delivery system.

- Q. Is Genius a cleanser or a moisturizer?**
- A.** It is not a cleanser or moisturizer; this product is a combination of a nightly resurfacing solution and pads that help improve the skin's appearance with time.
- Q. What if I experience minor itching or discomfort?**
- A.** If you experience irritation, redness or itching, reduce the frequency to 2–3 times a week, and consider incorporating Calm products into your regimen. If symptoms persist, discontinue use and consult a doctor.
- Q. Can it be used on sensitive skin?**
- A.** If you have sensitive skin, use with caution. Start using two times a week and build up frequency as skin adjusts. Use Calm Gentle Daily Cleanser and Soothing Facial Serum and follow with your favorite Arbonne moisturizer.
- Q. What products are best to use in conjunction with Genius?**
- A.** After using the Nightly Resurfacing Solution and Pads, we recommend using Calm Soothing Facial Serum, and RE9 Advanced® Night Repair Crème or FC5® Moisturizing Night Crème.
- Q. Can I go in the sun?**
- A.** When using the Nightly Resurfacing Solution and Pads, it's especially important to use sunscreen during the day. For excellent options, see the SPF products in the Also Recommended section.
- Q. Can I use the RE9 Advanced Cellular Renewal Masque while using Genius?**
- A.** Yes, you can use the Cellular Renewal Masque while using Genius. Depending on your skin sensitivity and type, you may use the pads after the masque treatment, then follow with your favorite Arbonne serum and moisturizing products. If sensitivity occurs, we recommend you alternate: Use the Cellular Renewal Masque (glycolic-based formula), then use the Genius Nightly Resurfacing Pads (retinoid-based formula) the next night. Sunscreen is recommended every morning after your nightly treatment.

INGREDIENT	SOURCE	FUNCTION
Dimethicone	Science	Skin-conditioning agent
